Dear Steve,

You will have recently received your Ofsted report following a short inspection. I would like to congratulate you on the overall good judgement and express my appreciation of the hard work of you, your staff and your governors in achieving this.

The report is a testament to the work that you and your team do and I am sure that you are all pleased with all the positive comments throughout the letter. The inspector has clearly identified the excellent quality of relationships between staff, pupils and the leadership team which creates such a positive learning environment in which high expectations lead to children feeling safe and achieving their potential. The quality of leadership and governance and the impact it has permeates throughout the letter. The broad range of extra curricula activities that you offer ensures that pupils enjoy rich experiences that contribute to their overall development and I am delighted that the inspector has recognised this. All this can only happen when all the staff and governors demonstrate a total commitment to the children and families you serve. Please pass my thanks on to them.

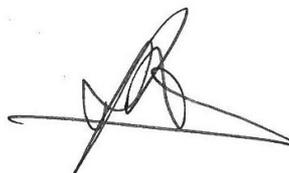

I know that you will be keen to build upon the successes identified in the report and continue to take the school forward. I note that the inspector has suggested areas for improvement and I am confident that you will embrace these and address them through your schools' improvement plan. In doing so, I hope that you will choose to work closely with the Local Authority, continue to work in partnership with other schools and also consider the support that Edsential can provide when delivering your action plan.

Thank you once again for your commitment and dedication and please pass on my very best wishes to all your pupils, staff and governors.

Yours sincerely

Delyth Curtis
